Professional Summary

Detail-oriented Web Developer with a strong foundation in React and specialized training in AI, Big Data, and Cloud Computing through an intensive ITI internship. Proven ability to deliver end-to-end web solutions, recently demonstrated by a large-scale traveling website graduation project. Passionate about building scalable, high-performance applications and leveraging data-driven technologies.

Work Experience

Fullstack Developer Intern

Jan '26 - Present

Digilians (MCIT Initiative)

- Developed and maintained responsive web applications using React.js and Node.js, ensuring 100% cross-browser compatibility and mobile responsiveness.

Contact Me

- Architected RESTful APIs with Express.js to handle data communication between the frontend and MongoDB/PostgreSQL databases, improving data retrieval efficiency.
- Implemented global state management using Redux or Context API, reducing prop-drilling and streamlining data flow across complex component trees.
- Integrated third-party APIs and authentication (e.g., Firebase, JWT) to enhance application security and provide dynamic user features.
- Collaborated in an Agile environment, participating in daily stand-ups and code reviews to maintain high code quality and meet project milestones.
- Optimized application performance by implementing lazy loading and code-splitting in React, resulting in faster initial page load times.
- Managed version control using Git and GitHub, resolving merge conflicts and maintaining clean branch architectures for team collaboration.

Wordpress Developer

Jan '25

Information Technology Institute (ITI)

- SEO & CMS: Optimizing WordPress architectures and implementing on-page SEO to drive user retention.
- Full-Stack Engineering: Developed a large-scale traveling website graduation project, applying Software Engineering principles to ensure modularity and scalability.
- Core Fundamentals: Mastered Object-Oriented Programming (OOP) in C++, Advanced Data Structures, and Clean Code principles.

Full-Stack Web Development Trainee

2025 - 2026

DEPI Initiative

- Intensive training on modern web technologies. Built several full-stack projects using the MERN stack and followed industry-standard state management patterns.
